

WEEKLY UPDATE AND NOTIFICATION OF NEW NEW CASE

December 18 , 2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had seventy residents and twenty-seven staff members test positive for COVID-19.

Due to the 23.7 % positivity rate in Washoe County, we are continuing to test all of our employees on a twice weekly basis.

We had one new staff member test positive in our screening process since our last update. The individual was removed from the schedule . We then tested all of our residents per our protocol . All of our residents have tested as negative .

Unfortunately, the high community positivity rate necessitates that we remain closed to on site visitation at this time. Please continue to utilize our schedule for face time and window visits in the interim.

We are in the process of working with Walgreens as the selected provider to administer COVID19 vaccinations for residents and staff . Nursing will be reaching out to family member to obtain consent for resident vaccinations .

You can continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 775-829-7220.

Sincerely,

Ellen Kelly
